

SWARAJ SHINDE

Data Scientist

Pune, India | swarajshinde024@gmail.com | +917028827455 | [LINKEDIN](#) | [GITHUB](#) | [LEETCODE](#)

Professional Summary

Data science professional with experience in generative AI, multi-agent systems, machine learning, and data analytics. Skilled in Python, SQL, and Excel for ETL, model development, and exploratory analysis. Currently building LLM-based applications and seeking a role focused on production-ready AI solutions.

Skills

- **Generative AI & LLMs:** Prompt Engineering, RAG (Retrieval-Augmented Generation), Tool / Function Calling, AI Agents (ReAct, Plan-and-Execute), Fine-tuning LLMs, Embeddings & Vector Search, Structured Outputs, LLM Evaluation (RAGAS), LoRA, PEFT
- **Frameworks & Orchestration:** LangChain, LangGraph, Langfuse, Langsmith, HuggingFace Transformers, PyTorch, Scikit-learn, FastAPI, Streamlit
- **ML & Data Science:** Machine Learning, NLP, Time Series Analysis, Recommendation Systems, Classification, Regression, Clustering, EDA, Feature Engineering, ETL Pipelines, Model Evaluation Metrics, Predictive Analytics
- **Programming & Databases:** Python, Pandas, NumPy, NLTK, ChromaDB, FAISS
- **MLOps & Deployment:** Docker, MLflow, REST APIs, Git, GitHub
- **Tools & Platforms:** Jupyter Notebook, VS Code, Power BI, Microsoft Excel

Professional Experience

Shivrai Technology Pvt. Ltd, Pune | Data Scientist

Dec 24 – Present

- **Project: Agentic AI-Driven Expense Estimation System**
 - Developed Agentic AI expense-estimation agents with rule-based and 5-tool-based cost modelling to automate cost analysis for farming operations, reducing manual effort by 90%.
 - Supported data-driven financial planning for 10,000+ farmers through scalable cost modelling across labour, fertilizers, and seasonal variables.
 - **Key Achievement:**
Delivered a production-ready Agentic AI system that automated complex cost estimation workflows for clients, ensuring scalable, reliable, and data-driven financial planning.
- **Project: RAG-Based Knowledge QA Chatbot**
 - Built and deployed a Hybrid RAG chatbot with vector search and embedding-based retrieval, delivering context-aware answers and handling 10,000+ queries per month.
 - Automated support query resolution, reducing support workload by 40% and cutting response time.
 - **Key Achievement:**
Built a scalable RAG pipeline that consistently retrieved high-quality context, enabling reliable AI-driven knowledge assistance.
- **Project: ML-Based Sales Forecasting & Inventory Optimization**
 - Developed time-series sales forecasting models for weekly and monthly vendor orders, identifying trends and seasonal patterns to improve demand accuracy by 15%.
 - Supported supply chain and procurement decisions, improving inventory planning and reducing wastage by 70%.
 - **Key Achievement:**
Delivered a scalable forecasting solution that aligned inventory planning with demand trends, directly improving operational efficiency and margins.

Nooral.AI Pvt Ltd, Satara Data Science Intern	Apr 24 – Nov 24
• Gained hands-on experience in real-world data analysis, including EDA, feature engineering, data visualization, model building, model evaluation, and deployment preparation. • Performed 2,000+ image annotations using LabelMe and CVAT, significantly improving data quality and boosting model accuracy. • Trained Computer Vision YOLO models for detecting road-side and high-infrastructure objects such as poles, street lights, lamps, dividers, and related infrastructure components.	

Personal Projects

PharmGPT Chatbot: Link	March 26
• Deployed a system using OpenAI’s GPT-4 for text generation and Stability AI’s Flux model for generating images of various yoga activities. The models were primarily trained on healthcare and pharmaceutical domain data.	
SmartTrip AI: Link	Feb 26
• Built an agentic AI trip planning system using LLMs with 4 integrated tools/APIs for itinerary generation, hotel recommendations, route optimization, and travel assistance. Implemented multi-tool orchestration, prompt engineering, and real-time API integration for personalized travel planning.	

Education

Dr. Babasaheb Ambedkar Technological University, Maharashtra	Jun 20 - Jun 24
• B-Tech in Computer Science and Engineering CGPA: 7.5	

Publications

Placement Cell System: AI powered application for placement department of college. Link	
• Published by IJRSET International Journal (Paper ID – 15680/IJRSET)	

Certifications

• Build Multimodal Generative AI Applications Certificate	Jun 26
• Data Science Specialization. Certificate	Mar 24
